SCHOOL GARDENS FOR FUTURE CITIZENS

## EU Digital Competence Framework

defines 5 five areas within the Competence Framework : information and data literacy; communication and collaboration; digital content creation; safety; and problem solving

Safety has four goals to protect devices, content, personal data and privacy in digital environments.

<https://www.schooleducationgateway.eu>

## Protecting Devices

To protect devices and digital content, and to understand risks and threats in digital environments. To know about safety and security measures and to have due regard to reliability and privacy.

## Protecting Personal Data & Privacy

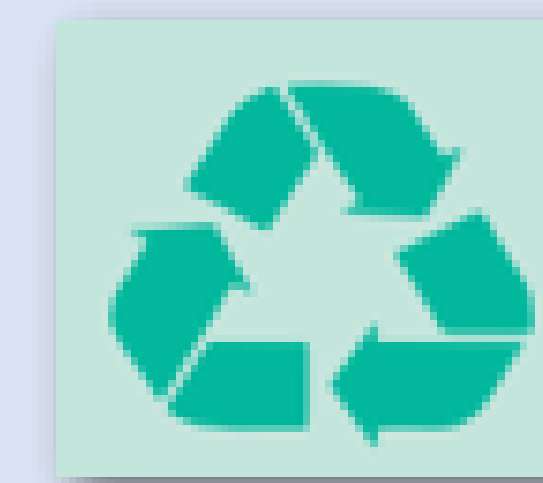

To understand how to use and share personally identifiable information while being able to protect oneself and others from damages. To understand that digital services use a "Privacy policy" to inform how personal data is used.

## Protecting Health & Well-being

To be able to avoid health-risks and threats to physical and psychological well-being while using digital technologies. To be able to protect oneself and others from possible dangers in digital environments. To be aware of digital technologies for social well-being and social inclusion.

## Protecting Environment

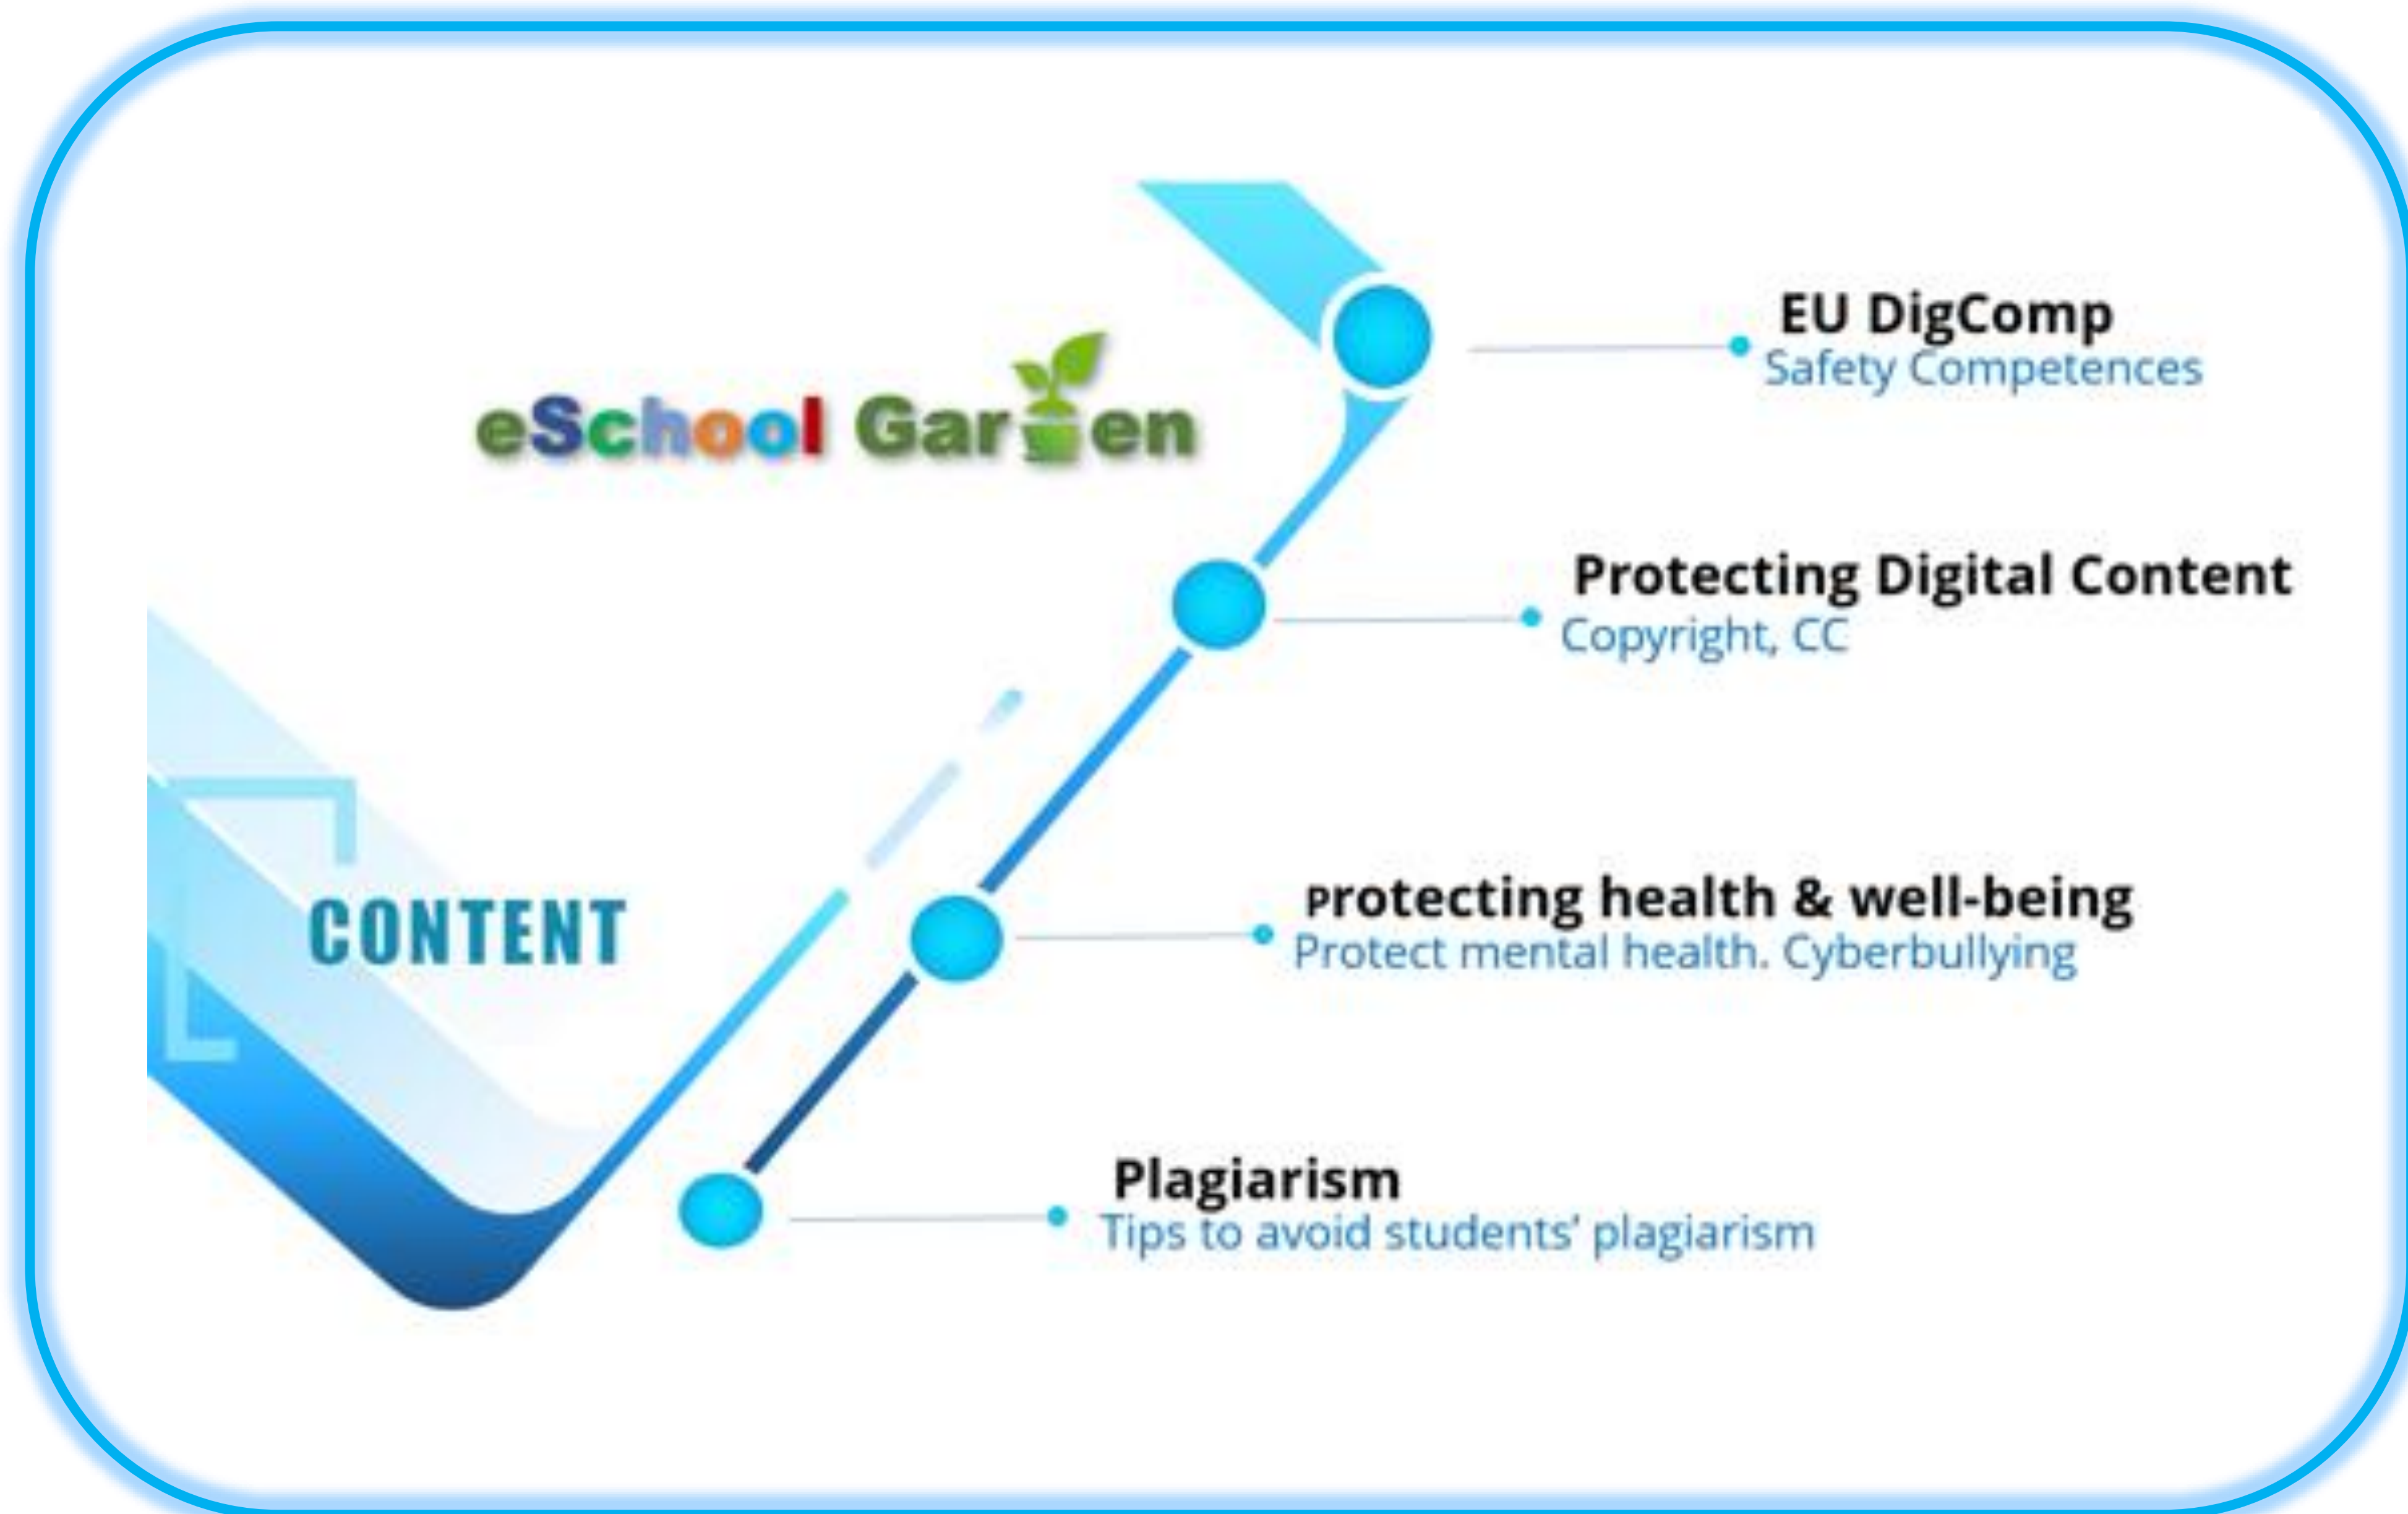

Goal : to be aware of the environmental impact of digital technologies and their use.

## Internet Safety

### Why?

Children need special protection online and they need to be educated about how to avoid danger in digital environments and how to get maximum benefit from their use of the Internet. The Internet exposes children to a wealth of opportunities, but also risks that may have a detrimental impact on their human rights.

## What is 'cyberbullying' ?

Cyberbullying Research Center defines a cyberbully as someone who "repeatedly harasses, mistreats, or makes fun of another person online".

LOG OFF the site where the bullying is happening.

SAVE THE MESSAGE or email and show an adult.

BLOCK EMAILS or messages. Don't respond to them.

TELL SOMEONE you trust.

## Approaches to avoid students' plagiarism

Plagiarism is a highly intolerable act in the digital community, a practice that all reputable individuals are trying to avoid.
